Hospital Universitario Marqués de Valdecilla	**Otorhinolaryngology / Rhinology Section**

JOB DETAILS

OFFER DESCRIPTION
Research support technician
FUNCTIONS
For the position of Research Support Technician, key functions include the comprehensive management of the databases associated with the CRAIS study, ensuring the correct collection, storage and analysis of data. In addition, you will coordinate the participating centres, ensuring efficient communication and compliance with the project objectives. Within the research tasks, an exhaustive bibliographic search will be carried out to keep the relevant scientific references and advances up to date, as well as the writing of research articles for the dissemination of the results. You will also actively participate in the coordination of other studies carried out by the rhinology section within the otorhinolaryngology service of the Marqués de

Valdecilla University Hospital, collaborating with the research team in the design and execution of scientific projects.

Her activities will include:
- **Management of legal documentation, agreements, contracts, etc.**
- **Administrative management.**
- **Monitoring the progress of the project, liaising with researchers from different centres.**
- **Advising researchers on study monitoring.**
- **Preparation of the necessary monitoring documentation (technical reports, budgets, etc.).**
- **Preparation of documentation for justification and, where appropriate, auditing.**
- **Dissemination of the most important aspects of the project.**
- **Support in all tasks related to the coordination of the CRAIS project.**

PRINCIPAL INVESTIGATOR / RESPONSABLE	RESEARCH GROUP	RESEARCH PROJECT
Jaime Viera Artiles	**INVESTIGACIÓN E INNOVACIÓN EN CIRUGÍA /ORL Rinología**	**SANOFI23/29: Clinical-radiological algorithm for optimising treatment in patients with chronic eosinophilic rhinosinusitis with poorly controlled nasosinusal polyposis after surgery.**
